Division Prot14

Adult children who have not yet reached the age of 25 can only be recognized as family members within the meaning of the VCDR/VCCR and can therefore stay in Germany together with an official if they are unmarried and economically dependent. Furthermore, they must live in the same household as the official for the duration of their stay in the Federal Republic of Germany.

Note: All other adult children who are staying elsewhere in Germany for other purposes (including studies or vocational training) are subject to the general provisions of immigration law and must apply for a corresponding residence permit from the immigration authority responsible for their respective place of residence.
